EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Maurice Pirio on 10 March 2008.

The application has been amended as follows:

Claim 65:

(Please delete from line 1) A -- "tangible" -- computer-readable medium

(Please insert at line 1) -- A physical computer-readable medium --

Claims 66-69:

(Please insert at line 1) -- The physical computer-readable medium of claim 65 --

Reasons for Allowance

Claims 51-69 are allowed.

The following is an examiner's statement of reasons for allowance:

With respect to claims 51, 59, and 65, the prior arts of record, singly or in combination, fail to teach the features of claim(s) limitations thereof. Specifically, inter

alia, it fails to teach a method and physical computer-readable medium in which there are multiple clients and multiple authentication mechanisms and a client is able to be authenticated by multiple authentication mechanisms. A controlling client sends instructions regarding multiple clients to a server, the instructions identifying multiple authentication mechanisms, which clients may be authenticated by which authentication mechanisms, and each client's access rights. These instructions are received by the server prior to the server receiving a request from a client. After receiving a request and authentication information from a first client, then the server authenticates the first client using one of the authentication mechanisms received from the controlling client. When the server receives a request from a second client, the second client is authenticated with a different authentication mechanism than the first client.

Claims 52-58, 60-64, and 66-69 further limit the allowed claims and are also allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
